# FSU Speech & Hearing Clinic

The FSU Communication Disorders Department sponsors the L. L. Schendel Speech and Hearing Clinic to provide services to children in the region with communication disorders and to provide supervised clinical education for speech-language pathology students. Through the support of the Scottish Rite Foundation, services to enhance communicative interactions of children with delays or disorders of communication are available to families with identified needs.

# Communication Camps

Language and learning enrichment with emphasis on school success

Skill building in phonological awareness and emergent literacy

Collaboration with community partners

Family involvement and FUN!!

# Just for Kids is For Families Too!
